62-47 100  
FALL 1899.

STRING CO.

ESTABLISHED 1873.

# SARCOXIE : NURSERIES.

JAMES B. WILD & BROS. Proprietors,  
Sarcoxie, Missouri.

ISSUED AUGUST 1899.

## OUR NURSERIES

Are located on the line of the St. Louis & San Francisco Railroad of the Santa Fe system; two passenger trains daily each way. Purchase ticket on reaching this line for Sarcoxie, Mo. It is but ten minutes walk from depot to our grounds.

DVANTAGEOUSLY SITUATED, CENTRALLY located on the St. Louis & San Francisco Railroad between diverging points. Side tracks adjoining grounds. Shipping facilities unsurpassed. Connected by telephone. Can also be reached through Mo., Kan. & Tex Long Distance Phone which now have station in Sarcoxie.

The Best Cool Storage and Packing House Extant.

SIFTINGS PRINTING CO., SARCOXIE, MO.

## Advertisement.

Our nurseries are situated on the western slope of the Ozark mountain range, at an elevation of over 1,350 feet above the sea (about 900 feet above St. Louis,) adjoining open prairie lands. These conditions together with character of soil, will at once convey the superior advantages we hold for growing nursery stock of the best quality and maturing same in advance of the more northern and southern states.

Having handled some of the products of a number of the leading nurseries east, north and south, the past few seasons, we are convinced that we have better matured stock here by October 1<sup>st</sup> than many nurseries can claim for same time. The conditions confronting us have brought about the necessity of growing a more complete line of stock, and which we now claim to have, thus assuring our patrons of as good quality, well matured and as complete in assortment as can be found in any one nursery.

## To Our Patrons and Friends.

We sincerely thank all our customers and friends who have so generously patronized us in this and former years, for your kind favors. We appreciate them, we assure you, and shall always strive to make your dealings with us both pleasant and profitable.

We hope to hear from all our old customers and friends during the coming season and from as many new ones as can make it an object through OUR PRICES AND MANNER OF DEALING DIRECT WITH THEM, to kindly favor us with their orders,

We give our attention wholly to the Nursery business—no other interests conflicting. Aided with twenty-three years' experience in the most improved methods of growing and handling nursery products, customers can rely on receiving the benefit of our large experience. We confidently ask the attention of our patrons to our stock, and trust when possible they will look through it and see what we have. Our grounds are open and free to all visitors, except Sunday.

THE GREATEST CARE being taken not to send out anything that is not true to name, holding ourselves ready to replace or refund upon proof, equal to the amount of first cost of trees, etc., that prove untrue but to no greater amount.

REFERENCES—That we are in actual and permanent business. We deem it only fair to place the information regarding the responsibility of the firm with whom you entrust your orders and commands.

REFER TO Messrs. John Harlan, Cashier Bank of Sarcoxie; Reynolds & Son; Gilbert Schooling; Goodner, Sabert & Co., or any business house in Sarcoxie.

## To Correspondents.

If you have sent us an order with remittance and do not hear from us in a reasonable time, write again. We invariably acknowledge all orders received, by postal card or letter, and give an ORDER NUMBER for reference, which you will please preserve.

If you have sent an order WITHOUT REMITTANCE you may fail to get an acknowledgment from a non-compliance with the terms published. We answer all correspondence relative in our line of business that is not or cannot be answered in our printed list; but anything about growing or planting, where a reply is wanted, must be so written as to allow us to insert answers.

RECEIPTS.—The receipt of every remittance is promptly acknowledged by us. Each order received is duly numbered, and as the receipts given mention said number, customers preserving their receipts can readily refer to any order sent us by simply giving the number, and we can instantly refer to the original order, which we preserve for a number of years for future reference. We hope each purchaser will save their receipts and when making inquiries concerning any order always give its number, for without it requires time and patience to look it up.

## What to Order.

While leaving everyone to make his own choice, we advise you not to order too many varieties, whether intended for domestic use or marketing. Select sparingly such varieties as have been favorites in the localities from which you came, especially if you are remote from there, but rather select such varieties as are suited to the locality you intend to plant in. In doing this you may have to give up some favorite sort, but it will be an easy matter when you see how unprofitable and out of season your favorites generally become.

We desire also to call your attention to those so-called Fruit Unions—that agree to plant orchards for you and claim to know better what you want, and are willing to select for you; your successful neighboring fruit grower is better able to tell you what to plant than any nurseryman or fruit grower remote from where you desire to plant.

## Execution of Orders.

We endeavor to execute all orders promptly and as nearly as possible in rotation as received, giving each order the most scrupulous care and attention to insure reasonable satisfaction. Spring shipping brings with it an unusual amount of items to be looked after, and notwithstanding we have a largely increased force of men, orders are liable to be delayed some days. Then again the mails are sometimes missent, or delays occur on the road that we are not responsible for. Occasionally errors occur in the hundreds and even thousands of details incidental to our business, but we are always ready to rectify them on proper proof, but cannot do so unless informed just what the trouble is within the limited time printed on the invoice sheet. When the bill and goods are received check it up at once; if correct give proper credit without delay; if not correct advise us of the fact then and there. See article 11, Terms and Conditions of Sale.

Adjustments are easy while the details are fresh in mind, but we cannot be blamed for looking with suspicion upon complaints made weeks afterward, or in refusing to consider them.

## Secure Your Selection by Sending Orders Early.

If our friends on receiving this catalogue will make a list of trees and plants they want, and send their orders at once we can then reserve, until proper shipping season, such stock that may be on hand at time order is received. Orders will be booked by complying with terms and conditions of sale.

## Packing and Delivering Season.

Which generally commences about October 10, in the fall; for spring, from open ground, about February 10 (often earlier.) For California and the south we pack and ship in mild weather from Storage House all winter, and it gives ample time for long shipments. Past experience has demonstrated the fact that nursery stock arrives in best condition when long time is required in transit, if shipped when stock is in most dormant condition—being during the months from November to February.

## Care of Trees on Arrival.

As soon as you unpack trees, having your trenches previously dug to receive them, set in a slanting position, then fill in and around the roots, treading the soil sufficiently to make it firm, and avoid having bunches side by side with soil between them. This is a serious drawback attending the growth of trees, as much damage results from having "heeled in" with openings allowing drying or freezing before planting, and the nurseryman is charged with having sent poor stock, when the fault is in mishandling after arrival.

When trees arrive in a shriveled condition after a long delay in shipment, take out all shriveled trees and bury tops and all frayed roots, to restore them. Should trees arrive in a frozen condition, place in the cellar to allow gradual thawing, or bury in soil until thawed out. Do not expose stock to hasten thawing. It is most essential to let frozen stock thaw out gradually in a dark, cool place; therefore avoid exposure to sunlight or heat when transferring to a cool place.

## No Agencies.

We are often asked if we employ agents to sell our trees and plants. In order to avoid much correspondence we here state that we have not, since we began our business, employed any agents.

Our efforts are directed toward the growing of FRUIT TREES, Forest and Evergreen Trees and plants, which shall be the best that can be produced. Hence, we look to the growing as first importance and offer our stock to the Wholesale and Retail Trade through our price-list direct, our only authorized agent.

We desire the patronage of all fruit-loving people, of men who know the value of genuine goods. We want the patronage of careful men who will take care of fruit trees and plants when bought. We want to sell to men who sell again and keep themselves familiar with the best varieties and needs of a planter.

If you desire to sell stock there is nothing to prevent you from soliciting orders on your own account and you can sell at prices that will remunerate you according to your zeal and energy.

Should you purchase trees at wholesale to sell again, we have no objection to you saying that your trees (as much as are purchased of us) are from our nurseries, but in no case can other stock be represented as our growing. Our trees and plants are guaranteed true to name to the purchaser only, after which our control ceases; hence, our responsibility also.

NOTE CAREFULLY BEFORE ORDERING

*The Terms and Conditions of Sale.*

1. TERMS—The prices in this list are under the following conditions, and for **CASH WITH ORDER**. Sales however to known, responsible, prompt paying customers we will book during shipping season, and forward orders to be paid for promptly on receipt of invoice. Parties unknown or with whom we have had no business transactions, will please send cash or satisfactory security with their orders. Stock ordered booked in advance of shipping season to be reserved, must be accompanied with remittance of **AT LEAST ONE THIRD OF THE LIST PRICE**; balance to be paid when shipping Season arrives. Orders so booked, we will name list of stock reserved, and such will be held subject to agreement, unavoidable accidents excepted. When such accidents have occurred notice will be promptly given stating nature of loss or damage. Orders given for future shipment without earnest money accompanying same will only be entered subject to stock ordered being on hand when shipping time arrives.

2. TELEGRAPH ORDERS to receive prompt attention when from unknown parties, must place sufficient deposit subject to our order, with Bank or Express Agent, and note same in order.

3. GOODS SENT C. O. D. when half the amount is sent us or deposited with Bank or Express Agent. When deposited it must be certified and certificate sent with order.

4. REMITTANCE AT OUR RISK if made by Postal Money Order on Sarcoxie, Mo., or money by Express prepaid, or draft on New York, St. Louis or Chicago. Drafts or checks on other points must be drawn with exchange; otherwise we will not accept them at par. Drafts and money orders should be made payable to **JAMES B. WILD & BROS.**

5. ANY REMITTANCE IN EXCESS of invoice will be promptly returned, or held subject to order.

6. ORDERS AND CONDITIONS OF SALE. At prices in this list, not less than 5, 10, 50, 100, 500 or 1000 of a sort and size of a class will be furnished at the respective 5, 10, 50, 100 or 500 rate; except when a class is offered in assortment, then 10 or more of a sort in that class may be selected in making up the 100 or 500 of that class to secure the 100 or 500 rate on same. Less than ten of a sort will be charged ten cents to the proportion of the ten rate. Example—when the ten rate is \$1 per ten, five will be furnished for 60 cents or one for 20 cents.) Further, prices herein quoted are for selection of sorts at respective prices given, but we reserve the right, to fill in a smaller or larger size (or age) than ordered, should we be out of size or age of sorts wanted, charging therefor at the respective size or age of sorts used in filling the order. Parties ordering should state preference of a larger or smaller grade so that we can be governed accordingly. Uniform grades cannot be guaranteed when sorts ordered are to be strictly adhered to. Orders joined with needed specifications not quoted or agreed to in this price list will not be entertained except by special agreement in writing. When sorts are ordered that we do not offer in this list, we shall exercise our judgment and send as nearly similar sorts as we have at command.

7. GRADES. Sizes height—or Caliper Measurements—are taken from the collar near the root, and are stated for guidance only. Slight variations may sometimes occur. Reasonable customers will understand that it is not calculated to mean measurement of each plant or tree. If any items sizes, ages or height requested are sold out, then the most available will be served as filling the desired place, unless prohibited in the order as given.

8. SAMPLES, when ordered, will be invoiced at list rates; but subject to a rebate to equal prices given on order placed through same.

9. BOXING, BALING AND PACKING. Prices herein do not include same. A moderate charge will be made for such, but no charge for delivering to Railroad depot or Express office here. We charge for boxes, (which includes packing) as follows:

12x12 inches by 8 ft.....	\$1 10	20x20 inches by 9 ft.....	\$1 65	28x28 inches by 10 ft.....	\$2 45
12x12 " " 9 ft.....	1 15	20x20 " " 10 ft.....	1 85	30x30 " " 8 ft.....	2 10
12x12 " " 10 ft.....	1 25	22x22 " " 8 ft.....	1 80	30x30 " " 9 ft.....	2 30

14x14 " " 9 ft.....	1 35	22x22 " " 10 ft.....	2 10	32x32 " " 8 ft.....	2 25
14x14 " " 10 ft.....	1 50	24x24 " " 8 ft.....	1 85	32x32 " " 9 ft.....	2 30
16x16 " " 8 ft.....	1 35	24x24 " " 9 ft.....	2 00	32x32 " " 10 ft.....	2 50
16x16 " " 9 ft.....	1 50	24x24 " " 10 ft.....	2 15	34x34 " " 8 ft.....	2 35
16x16 " " 10 ft.....	1 70	26x26 " " 8 ft.....	1 90	34x34 " " 9 ft.....	2 50
18x18 " " 8 ft.....	1 45	26x26 " " 9 ft.....	2 15	34x34 " " 10 ft.....	2 70
18x18 " " 9 ft.....	1 60	26x26 " " 10 ft.....	2 25	36x36 " " 8 ft.....	2 50
18x18 " " 10 ft.....	1 80	28x28 " " 8 ft.....	2 00	36x36 " " 9 ft.....	2 85
20x20 " " 8 ft.....	1 45	28x28 " " 9 ft.....	2 25	36x36 " " 10 ft.....	3 20

And in proportion for larger or smaller boxes. Bales from 10 cents to \$3 each. Boxes ordered paper lined or double lined and filled with sawdust will be extra cost. Packing of car loads in bulk with ordinary straw or hay packing, from \$5.00 to \$8.00 per car; where special material, as moss, and extra packing is ordered, the same will be at additional cost of material and labor required. See page 7 approximate cost of packing in boxes and bales.

10. TRANSPORTATION. Our responsibility ceases on the shipment of goods in good order, and transmittal of Bill of Lading to consignee; and payment of bill in no instance to be subject to arrival or non-arrival of goods at destination, though we will at any and all times use our utmost endeavors to trace up any missing goods.

**NOTE:** In order to secure 3d class freight rates under ruling of "The Western Classification" on Nursery Stock boxed (not baled,) shipper must release to value of \$5.00 per cwt., and in order that our patrons may have benefit of the lower freight rates we will release and guarantee freight charges through for them, unless instructed on order not to do so. Freight charges not guaranteed must be prepaid, or forwarder's will not accept goods for shipment.

**11. RECLAMATION.**—Claims for reduction from whatever cause **MUST BE MADE IMMEDIATELY ON RECEIPT OF GOODS.** No shortage claim entertained, unless itemized list of all stock as found is promptly submitted to us. Check off goods when you unpack, and then and there note carefully on a memoranda, itemized as to sort, size labeled, with number of bunches and number in each bunch received, thereby giving a detailed report of stock as found. Don't state so and so was short, without stating also what you did get. Remember we too want to know what you base your claims upon, and must have facts, as you may be over on some items, or mistook one sort for another, or you may have intended to order such and such, or more of some but failed to note same on order as sent in. In case of damaged stock and where you have a just reason to believe that fault rests with us for its condition—under such conditions we here request that such stock be immediately taken proper care of, so that no further damage may result; **AND AT ONCE NOTIFY US OF THE FACTS**, so that we may have opportunity to direct its disposition—your failure to do so must exempt us from further responsibility in the matter. Adjustments are easy while all the details are fresh in mind, but we cannot be blamed for declining claims upon complaints made weeks afterward.

**12. INSURANCE—AT THE PRICES IN THIS LIST.**—We do not guarantee stock to live, nor absolutely free from insect pests, or disease common to respective line of stock offered; nor will we replace free of cost that which dies or fails to grow—nor can we, in view of the various incidents that it is subject to, as the success or failure depend largely upon climatic conditions, manner of planting, after care, etc. Having been in the nursery business for over 24 years at Sarcoxie, and our business having increased with wonderful rapidity, now covering many hundred acres in a body devoted to the Nursery proper, is sufficient evidence that we are up with the times and have won the confidence of the patronizing public and number among our patrons the leading nurseries of the United States, Canada and Mexico. When a guarantee is wanted, exceptional to these terms—then the prices will necessarily be based on the nature of risks to be assumed.

**13. GUARANTEE OF GENUINENESS.**—While we exercise our greatest diligence and care to have all our trees, etc., true to label, and hold ourselves in readiness on proper proof to replace all trees, etc., that may prove untrue to label free of charge, or refund amount paid, it is mutually understood and agreed to between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

**14. POSITIVELY NO DEVIATION** from the foregoing terms, unless made by special agreement.

**15. THE PUBLICATION** of this list abrogates previous quotations.

## Give Plain Directions for Shipping.

Don't forget to write Post-office address plainly, also freight or express if different from Post-office. Purchasers will confer a favor by stating the manner in which they wish their goods sent—freight or express—also route. When none are designated we forward to the best of our judgment; but in no case do we assume any responsibility after the packages are shipped.

**PROMPT SHIPMENTS.**—To meet this want we have adapted our Packing House to every convenience for the rapid and thorough dispatching of orders.

**WEIGHT OF TREES PACKED** can only be given approximate; 1,000 trees packed for shipment, ordinary weight—1 to 2 feet, 150 to 200 lbs.; 2 to 3 feet 300 to 400 lbs.; 3 to 4 feet, 500 to 650 lbs.; 4 to 5 feet, 900 to 1,200 lbs.; 5 to 6 feet, 1,500 to 2,000 lbs.; 5 to 7 feet, three years old, 2,500 to 3,500 lbs.; 6 to 8 feet, 3,000 to 4,000 lbs.—evergreens weigh more.

**A CAR LOAD WILL HOLD** when packed in bulk in box cars from 10 to 12 thousand 5 to 6 foot trees, from 14 to 16 thousand 4 to 5 foot trees, and from 6 to 8 thousand 5 to 8 foot trees, and from one-fourth to one-half more when double.

Coal or flat cars boxed up will hold double the quantity of ordinary cars. Cost of boxing up a coal car is about \$30.00 per car.

To arrive at the approximate cost for boxing or baling we submit the following:

On 6 to 8 foot trees	\$9.00 to \$12.00 per 1000.	\$2.50 to \$3.00 per 100.	50c to 60c per 10
On 5 to 6 foot trees	7.00 to 9.00 "	1.50 to 2.00 "	30c to 40c "
On 4 to 5 foot trees	5.00 to 7.00 "	90 to 1.25 "	20c to 25c "
On 3 to 4 foot trees	3.00 to 5.00 "	50 to 75 "	15c to 20c "
On 2 to 3 foot trees	1.50 to 3.00 "	25 to 50 "	15c "
On 1 to 2 foot trees	75 to 1.50 "	20 to 25 "	10c "
Plants 6 to 7 inches	30 to 50 "	10	10c "
Vines and Strawberry plt's	30 to 50 "	10	10c "

The approximate cost for boxing and baling transplanted Evergreens:

On 5 to 6 foot trees	\$60.00 to \$70.00 per 1000	\$6.00 to \$7.00 per 100	\$1.00 to \$2.00 per 10
On 4 to 5 foot trees	30.00 to 60.00 "	3.00 to 6.00 "	75 to 150 "
On 3 to 4 foot trees	10.00 to 30.00 "	2.00 to 3.00 "	50 to 75 "
On 2 to 3 foot trees	7.00 to 9.00 "	1.50 to 2.00 "	30 to 50 "
On 1 to 2 foot trees	8.00 to 5.00 "	50 to 75 "	20 to 30 "
On 8 to 12 inch trees	75 to 1.50 "	20 to 30 "	10

Seedling Evergreens.

On 6 to 8 inch trees 50 to 75 " " 10 to 15 " " 10

No package put up for less than 10 cents

## 100,000 Apple Trees in Assortment.

At prices on this and the following page not less than 10 of a sort and grade will be furnished at the 10 rate; but by the 10 and 50 you are permitted to select in lots of 10 or more of a sort in a respective grade selected, to make up the number that will entitle you to 10 or 50 rate. When less than 10 of a sort and grade is selected then one will be charged up at the single rate, and each additional lot the ten rate until the 10 rate is reached.

**Note.**—Caliper measurements average about one-eighth of an inch per given foot in height.

Van Buren Dwarf.....	20	60	100

## STRAWBERRIES.

This, the most popular of small fruits, is of much importance with us. Sarcoxie, Mo., is situated in the very heart of the greatest Strawberry-growing regions of the United States, and from our station in the year 1897, 230 car loads were shipped, equal to 110,000 crates of 24 quarts each or 8,380,000 quarts. Being ourselves largely engaged in berry growing and in the midst of thousands of acres devoted to this luscious fruit, we are certainly in exceptionally good circumstances for judging varieties.

We endeavor to handle our plants in the very best manner. They are carefully cleaned, the roots straightened and neatly tied in bunches of fifty each, labeled and packed in paper tubes with moss.

Order strawberry plants early in spring by all means; as early as possible if to be shipped as freight; small lots or late in season must be sent by express. Let us book your orders while stock is full, and then have them shipped so as to reach you at least one week before they are wanted.

All varieties on this page and next, to varieties marked S, are pistillate [flowers without stamens] imperfect in blossom, and need at least every fourth row to be planted with some perfect or staminate sort which find on next page marked (S) to select from.

"If I live to see another spring I will surely set out a patch of Strawberries." Such expressions are often made during the Strawberry season and why not plant a patch, when there is no fruit that so readily responds with a rich reward for so little outlay. Strange as it may seem there are many people, especially in the country, who know nothing about strawberries. No fruit is so free from objectionable features as the strawberry. No thorns, no briars, easy of culture, easy to gather and the most refreshing of all fruits, coming in before any other. Set plants in rows four feet apart and one foot apart in the rows. Cultivate well, and by fall the plants will have matted the ground well over. Mulch lightly in winter to prevent plants from heaving.

We can supply strawberry plants during August at the rate per 100; during September at 10 and 100 rates; in the fall after October 20th during November and in the spring at 10, 100 and 1000 rates. No plants furnished at 1,000 rates in the fall, until after October 15th. The prices herein named are for layer plants.

Number of plants required to set one acre for field culture:

Distance.	Plants.
4 by 1 foot.....	10,890
4 by 2 feet.....	5,445
4 by 3 feet.....	3,630

12 Strawberry plants will be mailed for 10c additional to 100 rates of respective variety; at the 100 rate add 25 cents per 100 to cover postage, packing, etc.

Send for special prices for large quantities of strawberry plants.

Horseradish sets	15	25	30	1 00	

## Evergreens.

~~15~~ Prices on this page and pages 18 to 20 inclusive, are for each, 10 and 100 of a sort and size. Less quantity than 10 of a sort and size will be charged one at the single rate and each additional one of a sort and grade ordered at the 10 rate until the 10 rate is reached.

NOTE.—All Evergreens offered are of our own growing, from seeds and cuttings. Do not compare our rates with "forest pulled seedlings," nor with northern nursery grown, so-called; but note that those we offer can be had long before you can get them from the north. Aside from this ours are acclimated to the west and south, which gives them a decided advantage over others for timber plantations, wind-breaks and ornamental planting.

All here listed are transplanted and root-pruned. For seedlings see page 25.

~~15~~ Selected specimens 25 per cent higher; extra selected specimens 50 per cent higher than the list price.

		Each	per 5	per 10	per 50	per 100

Summer.

TEAS'  
Weeping  
Russian  
Mulberry.

Winter.

This most remarkable tree will, when known, take the foremost place among Weeping Trees, and all who see it appreciate at once that it is not only a first-class novelty, but at the same time a tree with sterling merit and value.

It is the most GRACEFUL and hardy tree in existence, and wholly unlike anything heretofore introduced, forming a perfect umbrella shaped head, with long, slender, willowy branches, dropping to the ground, parallel with the stem. All who have seen it agree that in light airy gracefulness and delicacy of form and motion it is without a rival.

It has BEAUTIFUL FOLIAGE—rather small—handsomely cut or divided into lobes, and of a delightful, fresh-looking, glossy green. In autumn many of the leaves are bordered with yellow, producing a novel and pleasing effect.

It is a long lived tree, flourishing in almost any soil or situation, wet or dry, and will be found particularly valuable in the Western and Southern states, where the Kilmarnock and other popular weeping trees utterly fail.

Rapid in growth and abundant in foliage, each branch adds to the formation of a finely rounded symmetrical head, making the MOST MAGNIFICENT tree ever introduced. It is especially desirable for ornamenting small grounds where large trees of large size could not be used; and it is no less appropriate in parks and other extensive places.

It is admirably adapted to CEMETERY PLANTING. Indeed here is a field where it stands without a rival, filling a long felt want. A perfect gem in size, style, and exquisite form together with all the hardiness, vigor and endurance that can be found in a tree. Cemetery trees are nearly always neglected and usually fail, but here is one peerless in beauty and suitableness, that will prove equal to the situation. It may be trained into a complete shady Arbor or a fine Ornamental Gateway, and a great variety of fanciful forms.

Twigs of this new weeper are not easily broken and when packed for shipment—an item of great importance. It has another important feature; being very tenacious, it resists more hardships in the growing season than many other weepers that are grafted or budded standard height.

CAUTION.—Our observation in the past six years has proven conclusively that this tree must be grafted on upright growing stocks to give it support. If you want a tree as represented in the cut, see that graft or bud has been set in the height of the tree desired. If not you may find you have a vine that must be furnished with a stake as support, and not a tree with its own support.

## 100,000 ORNAMENTAL FLOWERING SHRUBS.

At prices on this and pages 23 and 24, not less than 10 or 100 of a sort and size of a class will be furnished at the respective 10 or 100 rates, except when a class is offered in assortment; then 10 or more of a sort in that class may be selected in making up 100 or more of that class. Less than 10 of a sort will be charged one at the each rate, and each additional of that sort and size at the 10 rate until the 10 rate is reached.

### Copy of Certificate.

J. M. STEDMAN,

UNIVERSITY OF THE STATE OF MISSOURI

PROFESSOR OF ENTOMOLOGY

COLLEGE OF AGRICULTURE AND MECHANIC ARTS,

AND  
ENTOMOLOGIST OF THE EXPERIMENT STATION.

AGRICULTURAL EXPERIMENT STATION,  
Department of Entomology.

Columbia, Mo., August 30, 1899.

#### To Whom It May Concern:

This is to certify that on the 28th day of August, 1899, I examined the Nursery stock of the Sarcoxie Nurseries, JAMES B. WILD & BROS., proprietors, grown in their Nurseries at, and in the vicinity of Sarcoxie, Jasper County, Missouri, and found no indications of the presence of San Jose Scale, Peach Yellow, Rosette, or other dangerous insects or plant diseases liable to be transferred on Nursery stock from the Nursery to the orchard.

J. M. STEDMAN,  
Entomologist, Experiment Station.

### APPLE ROOT GRAFTS.

ROOT GRAFTS are Cions and Roots grafted and tied or bound together and are thus ready for planting in permanent nursery rows.

Orders for Root Grafts given without special agreed specifications will be put up in same manner as those we put up for our own planting. Length of graft, 6 to 7 inches which includes Root and Cion. Not less than 100 of a variety will be put up in the general assortment of varieties. Smaller or broken lots, as to varieties, or of new and scarcer kinds, will be priced as list will allow.

GRAFTS WEIGH from 15 to 40 pounds per 1000 packed. All orders put up at our risk of damage in storage up to March 1st, after that date same will be purchaser's risk.

## Grafts, Etc., for Nurserymen.

### Prices of Various Styles Apple Root Grafts Offered

 Special prices will be given when in want of large quantities; give list with number wanted in each sort, and the style

Style 3. Graft worked on No. 1, 3-16 up caliper stock, using first and second cut of a seedling with from four to five inches to a cut, and about 5-inch cion. Such grafts are termed by many nurserymen WHOLE ROOT GRAFTS. Price per 100 grafts of a sort, 50 cents.

Style 4. Graft worked on what is termed WHOLE STOCK, using No. 1, 3-16 up caliper seedlings and about 5-inch cion. Price per 100 grafts of a sort, 80 cents.

Style 5. Graft worked on No. 1, 3-16 up caliper stock, using about 5-inch seedlings and 5-inch cion. This style of graft is termed COLLAR or CROWN GRAFTS. Price per 100 grafts of a sort, 60 cents.

Style 6. Graft worked on No. 1, 3-16 up caliper stock, using all of such seedlings, usually making about 3 cuts of 3 inches each, and with about 5-inch cion. Such grafts are termed PIECE ROOT GRAFTS. Price per 100 of a sort, 40 cents.

Style 11. Graft worked on No. 1, 3-16 up caliper stocks, using only second cut and same to be about 5 inches, with 5-inch cion. Such grafts are termed SECOND CUT GRAFTS, and in our estimation the best grafts that can be secured from a seedling stock. Price per 100 grafts of a sort, 70 cents.

### Moss and Miscellaneous Articles.

### Thomas' American Fruit Culturist,

Containing practical directions for the propagation and culture of all fruits adapted to the United States. Twentieth edition, thoroughly revised, greatly enlarged, up-to-date. A very handsome volume of nearly 800 pages, profusely illustrated with 796 fine wood engravings. Bound in English muslin.

**Price, by Mail, Postage Free to All Parts of U. S., \$2.50.**

This book has long been the most practically useful one upon the fruits of the United States and is today the only one in the English language which is up-to-date, all others being from ten to twenty years old. In this edition entirely new chapters have been added upon Insects and Diseases, "The Spraying of Fruits," by Prof. Bailey; on Agricultural Experiment Stations; on Wild Fruits, on Nuts; on the Citrus Fruits and other Sub Tropical Fruits, the Persimmon, etc., by Mr. Hart. Prof. Budd has added descriptions and figures of new Russian Apples, while hundreds of new varieties of Apples, Cherries, Grapes, Peaches, Pears, Plums and the bush fruits have been described and figured.

 All figures of fruits are drawn to a scale, so as to give a correct idea of size

**NOTE.—Orders for Thomas' American Fruit Culturist will be sent to publishers to be filled as we do not keep the Books in Stock.**

Parties in ordering will oblige us by using this form, attaching to it when necessary.

**Certificate of Inspection.**

Owing to the temporary absence of Prof. J. M. Stedman, State Entomologist for the state of Missouri, we are unable to publish the Certificates of Inspection in connection—as intended—with this issue of August, 1899, the time of going to print of our price list of fall of 1899 and spring of 1900 issue. Our many customers will be assured that we will be in position to attach a regularly authorized CERTIFICATE OF INSPECTION which will be sent with each and every invoice of all shipments sent out by us this fall and next spring. Very Respy., JAMES B. WILD & BROS.
